## Introduction

**Ntebogang Technologies** is a digital design agency founded by **Mr Tshoganetso Ntebogang** who is a software developer by profession. He is the managing director of the business which he started in Gaborone and is now operating in Palapye.

Ntebogang Technologies has a youthful team of experienced graphic designers, digital marketers and web developers. Our ultimate goal is to be the preferred digital design company that offers cutting edge solutions to both SMMEs, NGOs, Government Institutions, Parastals and Corporate Institutions.

Our company has evolved from being a software development start-up to a one stop digital and branding solutions company offering customised services to our clientele. We handle client projects from brief to brainstorming sessions, conceptualising and brand development solutions. We attribute our significant growth to our ability of meeting our client's needs with pragmatic solutions that are result orientated.

Our portfolio is proof of the capacity that we have to serve both small, medium and large scale businesses. We strive to grow our business to create opportunities to employ youths by partnering with relevant stakeholders within our communities.

## Vision and Mission

### Vision

We strive to become a global digital design and technology solutions company, a world leader. We are passionate in investing in innovation and technology to help businesses to achieve and reach their business goals.

### Mission Statement

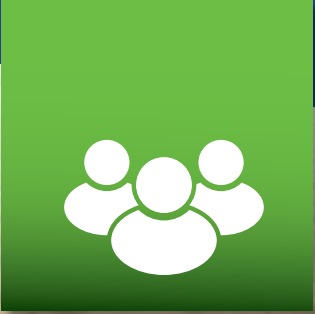

Our mission is to help our clients with branding digital technology solutions that confront real world challenges. Through our love for innovation we are dedicated to become a better company to serve our clients, our community and the world at large.

### Our Values

- Honesty
- Passion
- Customer centric
- Team work
- Change
- Innovation

### Objectives

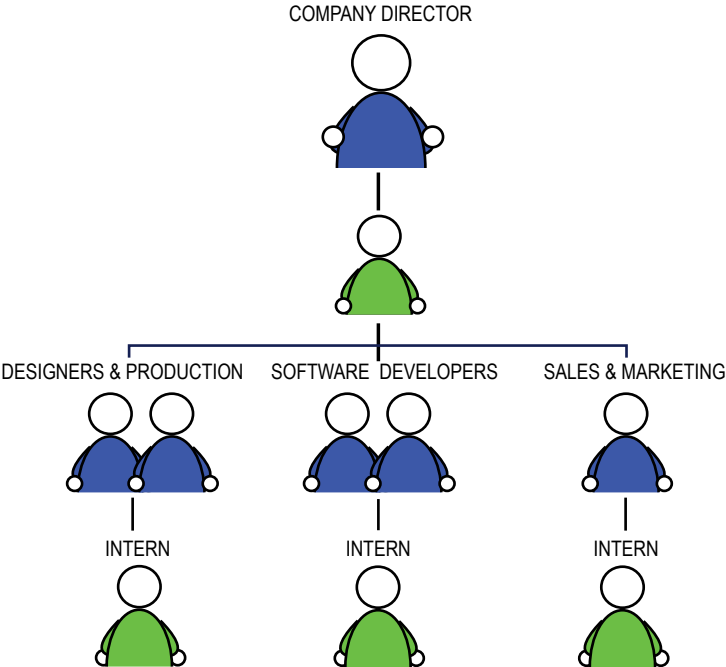

- To become a process driven company following the industry standard and benchmark
- To provide quality services and always be customer centric
- To become a leading player in Botswana software industry

### Our Management Team - CEO/Head Software Developer

Mr. Ntebogang Tshoganetso holds a National Diploma in Information Technology from Vaal University of Technology and a B-Tech in Software Development from Tshwane University of Technology(TUT). Ntebogang’s areas of specialty are software development, web development and design, web application programming, system design, cyber security, search engine optimization, and web security and Stabilization, among other technical competencies. He is also an expert in Digital Marketing.
